

**Anton Art Center
Resolution Against Violence and Hate**

April 2021

Anton Art Center staff, board members and volunteers recognize that violent crime has been prevalent recently, and that many of those crimes have targeted minorities. We denounce violence and hate in all its forms, and stand in support of communities who have been affected by violence, and especially violence perpetuated from feelings of hate.

Our ethical principles are honesty, promise-keeping, fairness, respect for others, compassion, integrity and teamwork. Within these principles there is no room for hate or violence, and we are committed to creating a safe space where we can continue working to enrich and inspire people of all ages through the arts and to create an open community around creative expression.

Adopted by the Anton Art Center Board of Trustees at the May 27, 2021 Special Meeting.
